MEETING AGENDA: Agenda Topic	Key Discussion Points / Decisions	Notes
Welcome	Introductions Agenda/Overview Purpose/Goal	<ul style="list-style-type: none"> <li>• Seth greeted group members; names and affiliations entered in chat</li> <li>• SOP Service Integration document was shared with the group; currently responding to CMMI feedback/questions</li> </ul>
Meetings	Meeting Steps - Dates and Priority topics	<ul style="list-style-type: none"> <li>• This meeting topic changed to focus on Terms &amp; Conditions</li> <li>• Two Future meetings resume topics</li> </ul>
Recap		<ul style="list-style-type: none"> <li>• NOFO</li> <li>• CMS/CMMI expectations for Service Integration (SOP)</li> </ul>
Discussion	<p>Guiding Principles - from PCMH  <b>Team Based Care &amp; Practice Organization</b>  <i>Example of principle to T&amp;C:</i></p> <ul style="list-style-type: none"> <li>• <i>principle of embedding care coordination into medical practice is important →</i></li> <li>• <i>this could translate into T&amp;C that says that for InCK providers in medical settings, there must be an established system level meeting/collaboration that happens at least quarterly between medical leadership and InCK care coordination leadership to ensure alignment of approach; there must be a codified process for individual case conferencing when InCK providers are delivering care management to an established patient of the medical practice and vice versa</i></li> </ul>	<p>Discussion on system level alignment and Care Planning</p> <ul style="list-style-type: none"> <li>• Cheryl asked about “embedding Care Coordination” in medical practices and CBOs working with multiple providers</li> <li>• InCK is not strictly medical provider based; BH/MH and CBOs providing Care Coordination can be identified as InCK provider by patient attribution</li> <li>• Giselle - PANH Care Coordination links to providers; Asks about payment process: to care coordinator or provider?</li> <li>• Jen - this is in development with APM DG and will be informed by Medicaid Authority - TCM</li> <li>• Paul - homeless youth/emerging adults may not be receiving any medical care; asks about Medical Home model and whether medical treatment (claims) is required for reimbursement of Care Coord.</li> <li>• Erica - suggests that currently, provider/agency must have clinical staff to supervise Care Coord or hire Care Coords. We are using PCMH and WRAP as standards of care for the system.</li> <li>• Jen - 2020 claims data reveals 35k pop and attributed providers as well as Unite Us utilization</li> </ul>

MEETING AGENDA: Agenda Topic	Key Discussion Points / Decisions	Notes
---------------------------------	-----------------------------------	-------

	<p><b>Knowing &amp; Managing Patients</b></p> <p><i>Example of principle to T&amp;C: Principle of family being listened to could translate into T&amp;C whereby InCK providers must have written patient/family bills of rights or other formal protocols that outline how, when, and where InCK providers engage family members in care coordination</i></p> <p><i>Are there other terms and conditions to consider for example:</i></p> <ul style="list-style-type: none"> <li>• <i>Data collection</i></li> <li>• <i>Medication reconciliation</i></li> <li>• <i>Evidence-based clinical decision support</i></li> <li>• <i>Other activities</i></li> </ul>	<ul style="list-style-type: none"> <li>• Brittany asks about using Trauma Informed Care by Care Coords - are they trained and aware of resources to make referrals?; clarified later - TI Approach to Care</li> <li>• Erica - working on payment for TI training but currently Medicaid has no CPT code to direct bill for trauma screening</li> <li>• Charles - CB Care Coords use 1-2 Trauma Assessments with Clinical follow up; flags categorized already if notifying Care Coord; meet with the Care Team through trauma lens</li> </ul>
	<p><b>Access, Care Management &amp; Referrals</b></p> <p><i>Example of how a guiding principle becomes a T&amp;C:</i></p> <ul style="list-style-type: none"> <li>• <i>transportation and childcare barriers were important to address as it relates to access</i></li> </ul> <p><i>The T&amp;C may include:</i></p> <ul style="list-style-type: none"> <li>• <i>requiring participating providers have written protocol on how to facilitate the broadest possible access to families and children facing transportation or childcare</i></li> </ul>	<ul style="list-style-type: none"> <li>• Kitty asked if MI trained to Care Coords</li> <li>• Charles confirmed that MI, Engagement, Crisis Planning Modules of WRAP are trained yearly with Quarterly refresher/boosters needed</li> </ul> <p>Jen - revisited 2020 claims data - beyond the PCP/OB pop, 7500 beneficiaries are not attributed to a provider</p> <p>Erica - watch and update</p> <p>Cheryl - kids with special health care needs; what about kids who have not seen a health care provider in last year? Most medical providers do not provide Care Coordination.</p> <p>Giselle - asks:</p> <ol style="list-style-type: none"> <li>1. when does care coordination stop (end) - what is the requirement?</li> </ol>

MEETING AGENDA: Agenda Topic	Key Discussion Points / Decisions	Notes
---------------------------------	-----------------------------------	-------

	<p><i>barriers:</i></p> <ul style="list-style-type: none"> <li>• <i>for example, direct transportation delivered by provider, transportation vouchers, extended and/or weekend hours, and <u>virtual care when necessary and desired by children and families</u></i></li> </ul> <p><i>Are there other terms and conditions to consider for example:</i></p> <ul style="list-style-type: none"> <li>• <i>Convenient access to INCK supports</i></li> <li>• <i>Information sharing among InCK providers</i></li> <li>• <i>Managing patient referrals to minimize cost, confusion and inappropriate care.</i></li> <li>• <i>How are care transitions managed?</i></li> </ul>	<p>2. referrals: who in care coordination, where are we housing the data/information? platform? so others can see care coordination communications. what is reimbursement based on? time can be considerable investment to document.</p> <p>Seth - outcomes of referrals? where are they captured - best practices.</p>
	<p><b>Information Technology &amp; Unite Us</b></p> <p><i>Example of principle to T&amp;C: Principle of accessible and user-friendly platform translates into T&amp;C whereby all InCK provider must provide information to children and families (developed and provided by CT-InCK and Unite Us) on how to self-refer to services through Unite Us web platform</i></p> <p><i>Are there other terms and conditions to</i></p>	<ul style="list-style-type: none"> <li>• Seth - contract signed with Unite Us</li> <li>• Giselle - care coordination notes and communication <ul style="list-style-type: none"> <li>○ SOP, Unite Us capacity? now and future functionality</li> <li>○ Care Coord on steroids! linkages, providers, follow-up rely on tech and comms</li> <li>○ UU now - translates info, emails and texts parents</li> <li>○ upcoming demo - new tools</li> </ul> </li> <li>• Paul - concerned about grants/documentation req'ts and linking one system of info/data with another</li> <li>• Jen - Dr Sude suggests NOT asking providers "to do 1 more thing"; we have to streamline process; UU embedded in EPIC @ Yale with SSO</li> </ul>

MEETING AGENDA: Agenda Topic	Key Discussion Points / Decisions	Notes
---------------------------------	-----------------------------------	-------

	<p><i>consider for example:</i></p> <ul style="list-style-type: none"> <li>● <i>Use of Care Management Technology</i></li> <li>● <i>Consenting</i></li> <li>● <i>Other electronic documentation?</i></li> <li>● <i>Other ways to ensure referral success/how might we also require providers to follow-up on outcome of need (accepted, reviewed, recalled, rejected). Needs action, opened, closed,</i></li> <li>● <i>What would they consider an outcome measure beyond the process of a referral?</i></li> </ul>	<ul style="list-style-type: none"> <li>● Giselle - <ul style="list-style-type: none"> <li>○ how much data from UniteUs is sent to CMS? Their current tool tracks outcome of referral, not need (to refer out/other providers). Tracking need - use other tools, NowPow for CMS grant and CLARA for clinical navigation.</li> <li>○ how much documentation can be in UniteUs? EPIC has a history/chart and can log into Unite Us (211 in EPIC) to refer to resources</li> </ul> </li> <li>● KellyAnn - shared concern about limited “tracking” of referrals <ul style="list-style-type: none"> <li>○ asks what Unite Us can provide now/and needs to build out</li> <li>○ Run reports? for each provider?</li> <li>○ link to other platforms</li> <li>○ trying to get hours needed to document for each client; spending too much time in computer platforms transferring info v. face time with clients providing serve</li> <li>○ value and benefit</li> </ul> </li> <li>● Jen - contracted w Unite Us - fnx e-consent, Needs Assessment, SPoC</li> <li>● If members are aware of other systems, enter in CHAT</li> <li>● Cheryl - referrals, case notes?</li> <li>● Jen - track referrals, NA, SILs, SIL3 - SPoC to share, individual unique records collected, case notes? duplication? or other preferred systems</li> <li>● Cheryl - who reviews the records?</li> <li>● Jen - CMS - Universal Needs Assessment and SIL determination cadence. T&amp;C will id set of Questions and Care Plan - access to inform treatment?</li> <li>● Paul - concerned about paper records, releases, and data protection</li> <li>● Cheryl - NA results go to Beacon (ASO) to re-stratify. They are using</li> </ul>

		DPH and EPIC. <ul style="list-style-type: none"> <li>Jen - unsure about paper linking to the provider system</li> </ul>
	<p><b>Performance Measurement &amp; Quality Improvement</b></p> <p><i>Example: Principle of completing needs conversations translates into T&amp;C that outlines the timeframe by which needs assessments must be completed and data entered into system (Unite Us).</i></p> <p><i>Are there other terms and conditions to consider for example:</i></p> <ul style="list-style-type: none"> <li>Reporting frequency</li> <li>Community Task Force</li> <li>How might will the CHOs support continuous quality improvement (CQI) activities</li> </ul>	<ul style="list-style-type: none"> <li>Charles asks about incentives - for family?</li> <li>Seth - care coordinators/providers</li> <li>Jen - shares 80% completion of Needs Conversation req'd by CMS is too high; at best 30% is standard</li> </ul>
	<p><b>General Questions</b></p>	<ul style="list-style-type: none"> <li>Seth - identified outreach to providers</li> <li>Cheryl - 62% of beneficiaries referred to her accept services; will look up # or % of Needs Assessment completion rate               <ul style="list-style-type: none"> <li>CCMC auto sends referrals</li> <li>no communication to families prior to referrals</li> </ul> </li> <li>Charles - appropriate referrals; engaging providers means giving them something to do to keep them coming; engage family right away</li> <li>Cheryl - we will have a hard time engaging providers</li> </ul>
Next Steps		<ul style="list-style-type: none"> <li>Add providers to next meeting(s)</li> </ul>
